ONYX

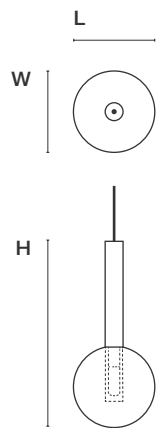

manooi

Onyx, a rare and precious crystalline stone with natural beauty is used to craft Manooi's latest design collection. Each lamp in the collection is unique because the pattern and colour of the Onyx vary with each piece as an expression of Earth's artistry. Carefully shaped and polished to bring out its colors and natural rock texture made up of crystals, it creates a luxurious and elegant look. Designed with LED technologies, the lamps provide a warm and inviting light while the Onyx's natural properties help create a soft and gentle glow, creating a welcoming atmosphere.
